SUBJECT: Personnel Study

*Dick*

I read your Directorate's commentary on the personnel study and noted your reservations about banding. Thought you might be interested in the attached proposal which I sent to Clair

. Needless to say, it didn't go anywhere. I still think it is a simple way to address one of the most pressing personnel problems that we have; namely, that we do not have a uniform nor generous bonus system for General Schedule employees. This in the face of very good bonus systems for Secretarial and Senior Intelligence Service employees.
